

Static Charge Video Assignment

Your Task:

You will be tasked with creating a video demonstrating your ability to understand and use a static charge. You can use whatever materials you have on hand at home. If you need to use materials from school then please come in to get them.

Your Explanation:

You will need to use a static charge and be able to explain in your video how it works. For example, watch the video on Google Classroom (see link below). Also be creative and have fun showing your learning and application of static. **Communication** is the curricular competency you will be demonstrating.

Your Map of Supports for the assignment:

	Material Support	Technology Support	Content Support
What I require?	I require additional materials to show static	I require the use of a school laptop or iPad to video my demonstration of learning	I require more clarification on the assignment and/or information about static electricity
How to receive the support?	I can come into the classroom before school, at break, at lunch or in the afternoon to ask for materials	I can go to the Learning Commons to borrow a device	I can meet Mr. Kind: -face-to-face before school, at break, at lunch or in the afternoon -virtually on Google Meets during teacher office hours - by emailing my questions
